

# CALLING ALL SLTS WHO WORK WITH CHILDREN

**Would you like to participate in research exploring  
SLTs' experiences of trauma informed care in  
Aotearoa?**

As part of my MSLTPrac degree at the University of Auckland I want to interview SLTs who have experience working with children in Aotearoa New Zealand. This study seeks to explore SLTs perspectives regarding the impacts of developmental trauma on the communication needs of children.

This one-off interview (60 minutes) will be analysed to explore the knowledge, training and practices of speech-language therapists.
